Well-established practice with 20 years at our current location. Small town atmosphere with an excellent school system, two local hospitals, and many churches of all denominations. We are currently a 3 doctor practice, but looking to replace a retiring veterinarian.

Loyal clientele, excellent support staff, and an emphasis on excellent patient care as well as client care and communication. Well-equipped facility, but always looking to expand services. General soft tissue and orthopedic surgery provided, general dentistry, emergency medicine and preventative care offered. Large animal practice is primarily cow/calf with growing small ruminant and swine practice. Production medicine, general surgery, and reproductive and fertility evaluations as well.
