

BMS SEMINAR SERIES – 2226 VET MED – Thursday’s at NOON

FALL 2017	SPEAKER & SEMINAR TITLE	FACULTY HOST
August 24	Dr. Debra Romberger - University of Nebraska Medical Center <i>Can nutrition influence organic dust induced airway inflammation and repair?</i>	C. Charavaryamath
August 31	Dr. David Schwartz - University of Colorado, Denver <i>Idiopathic Pulmonary Fibrosis: a genetic disease that involves mucociliary dysfunction of the peripheral airways</i>	C. Charavaryamath
September 7	Dr. Charles Wood - University of Nebraska, Lincoln <i>Kaposi’s sarcomas and human herpesvirus in Africa</i>	M. Cho
September 14	Dr. LiLian Yuan- Des Moines University <i>Rapid-acting antidepressant effects of ketamine: mechanisms of action</i>	An. Kanthasamy
September 21	Dr. Manisha Patel – University of Colorado, Denver <i>Reactive species and mitochondrial mechanisms in neuronal disorders</i>	T. Thippeswamy
September 28	Dr. Avtar Roopra - University of Wisconsin <i>Chromatin Modifiers in Epilepsy and Autism: Bioinformatic Approaches to Problems in Neuroscience</i>	T. Thippeswamy
October 5	Dr. Wei Zheng – Purdue University, School of Health <i>Altered Adult Neurogenesis: A New Area in Manganese Neurotoxicological Research</i>	An. Kanthasamy
October 12	Dr. Patrick Brunin - Van Andel Research Institute <i>Pathogenetic mechanisms and pharmacological treatment in cell and animal models of Parkinson’s disease</i>	An. Kanthasamy
October 19	Dr. Thomas Beach - Banner Sun Health Research Institute <i>Peripheral Alpha-Synuclein Pathology in the Lewy Body Disorders</i>	V. Anantharam
October 26	Dr. Stamatatos- Fred Hutchinson Cancer Research Center <i>Targeted expansion of B cell precursor lineages linked with broadly HIV-1 neutralizing</i>	M. Cho
November 2	Dr. Phillip Gauger – Iowa State University <i>Pathogenesis of a parainfluenza virus associated with respiratory disease in swine</i>	M. Cho
November 9	Dr. Francesca DiSole- Des Moines University <i>Blood Pressure Control: Novel Mechanisms of Renal Salt Homeostasis Regulation</i>	M. Lyons
November 16	Dr. Zhibin Wang - Johns Hopkins University <i>Random allelic expression of genes in environmental sciences</i>	An. Kanthasamy
November 23	Thanksgiving break- No seminars	
November 30	Dr. Hua Bai - Iowa State University <i>Autonomous and Non-Autonomous Regulation of Cardiac Aging in Drosophila</i>	M. Cho
