The College of Veterinary Medicine at Iowa State University is seeking applications for a full-time, tenured, tenure-track, or clinical track position in the department of Veterinary Diagnostic and Production Animal Medicine (VDPAM). Applications will be accepted at the Clinical Assistant Professor, Clinical Associate Professor, Clinical Professor; Assistant, Associate, or Professor levels. Iowa leads the U.S. in egg production and is in the top 10 in turkey production. The successful candidate will be extensively involved with Iowa’s poultry industries and will join a department with 55 food animal focused faculty members and 135 staff. This position will commit approximately 40-60% effort to professional practice/outreach, 20-40% to research and 5-10% to teaching. Responsibilities will include providing diagnostic services to the poultry industry, developing and delivering outreach services to the poultry industry, and conducting applied research of relevance to the Iowa and U.S. poultry industries. The successful candidate will also contribute to teaching poultry production medicine courses. This position will serve as a liaison between the College of Veterinary Medicine, Iowa poultry organizations, and the Iowa Department of Agriculture and Land Stewardship. The person in this position is expected to participate in and contribute to regional and national professional poultry health associations.

Required qualifications include holding a DVM or equivalent degree with evidence of interest in poultry production medicine or a closely related field. Preferred qualifications include having at least 2 years of experience in poultry production medicine, a record of scholarship in research related to poultry production medicine, a record of delivering high quality extension and outreach programs, board certification in poultry medicine, veterinary pathology, or related fields and an advanced degree (MS, MAM, MSpVM, PhD or equivalent degrees) in poultry medicine, veterinary pathology, or related fields.
