Avian Feather Destruction History Form

Client Name: ________________________ Date: ________________________

Patient Name: ______________________

Instructions: Feather destruction disorder is a complex problem in pet birds. In many cases, several environmental and/or medical issues are involved. A comprehensive history is an essential part of diagnosing and treating this condition. Please answer the questions below with as much detail as possible. Thank you.

Extent of the problem

Does your bird (check all that apply):

- Chew feathers
- Pull out or pluck feathers
- Mutilate skin
- Other: __________________________________________________________

Does your bird appear to be itchy? (Signs of itchiness include scratching with the feet, rubbing on the cage or perches, and scratching the skin with the beak):

- No
- Mildly or occasionally
- Moderately to severely
- Unsure

On the drawings below, please shade in the area(s) that your bird picks or mutilates:
Onset and progression

When did your bird start self-picking/mutilating? (This is the “onset” date)________

Please check the box that best describes the onset of the problem:
- Sudden (one day the bird started self-picking/mutilating dramatically)
- Gradual (the onset was subtle)
- I don’t know, the bird was this way when I acquired him/her

Please check the box that best describes the progression of the self-picking/mutilating:
- Improving: the severity has decreased since it started
- Static: the severity has not changed over time
- Progressive: the severity has become worse over time
- Episodic: my bird plucks/mutilates sometimes, but then lets the feathers grow back
- Intermittent: the picking/mutilating occurs every day (or almost every day) but is worse on some days than others

Patient Profile: Check ALL the boxes that best describe your bird:

My bird was: hand raised captive bred but not hand fed wild caught I don’t know

My bird: loves most people loves one person and is indifferent or hostile toward others is tame but not attached to any particular person doesn’t seem to like people

My bird loves to be scratched or cuddled: always sometimes never

My bird chews/plays with toys: every day occasionally seldom/never I don’t know

My bird enjoys: wood toys plastic toys rope toys metal toys leather puzzles paper/cardboard mirrors swings no toys other:_____________

My bird is fearful of or seems to hate: being left alone loud noises dogs cats adults children strange people strange animals new places new toys other:

My bird demonstrates sexual behavior (mounting, masturbation, regurgitation):
- Frequently
- Occasionally
- Never
- Towards human(s)
- Towards other bird(s)

My bird is: Very Active Moderately Active Not very active

My bird is: Very vocal or noisy Moderately vocal or noisy Quiet

My bird is: Trained to obey commands (e.g. “step up,” “no biting”), and is usually obedient
- Trained to obey commands, but is often disobedient or only obeys one person
- Not trained to obey any commands

My bird’s wings are clipped: Always Sometimes Never Who clips them?________

Does your bird seem to have any other behavioral or medical problems other than feather destruction/mutilation? No Yes If yes, please describe:________________________

Family and Flock History

How many people live in your home?____

Is your bird especially fond of one family member? No Yes:________________
Do you own any other birds?  No  Yes  
List any birds that share a cage with the bird that is here today____________________
List any other birds_________________________________________________________
Is this bird friendly toward any of the other birds?  No  Yes:____________________
Is this bird aggressive toward any of the other birds?  No  Yes:__________________
Does this bird pick feathers from another bird?  No  Yes:______________________
Does another bird pick feathers from this bird?  No  Yes:______________________

Please describe any other people or pets that interact with your bird and indicate if your bird seems to enjoy the interaction:
________________________________________________________

Environmental History

Does your bird receive sunlight?  Yes  No
Does your bird receive ultraviolet light?  Yes  No
Does your bird take baths on his/her own?  Yes  No
Do you bathe your bird?  Yes  No  If yes, how and how often?____________________
About how many toys does your bird have in its cage at one time?_________________
How often are toys changed or rotated?________________________________________
How many hours per day does your bird spend alone (no people in the same room)?____
Does your bird have daily access to the following:  Window  Television  Radio
Describe any other diversions you provide:_____________________________________
Describe the area around your bird’s cage:________________________________________

Changes: Did any of the following occur **within 3 months prior to the onset date**? If yes, please give date(s) and describe:

Environmental changes:

Move to new home:____________________
New cage:___________________________
Cage moved to different location in home:_______________________________
House or cage changed in some way:_______________________________________

Flock changes:

Has anyone been added to your family (e.g. birth, adoption, marriage, or moving in)?____________
