

IOWA STATE UNIVERSITY

Veterinary Diagnostic Laboratory
Department of Veterinary Diagnostic
and Production Animal Medicine
1600 South 16th Street
2630 Veterinary Medicine
Ames, IA 50011

To: ISU VDL Clientele
Date: 01/27/2016
Subject: AIV sequencing – USDA surveillance

Please note that any sequencing performed under the USDA influenza surveillance algorithm **MUST** have an isolate before sequencing can be completed. Thus, any **forwarding may be delayed** while we wait for the isolate and subsequent sequence. If expedited results are needed, the client will be responsible for the cost associated with sequencing outside of the USDA algorithm.
